Subject: Work Completion - Neuhauser Landfill

Dear Ms. Ackerman:

Pursuant to the Administrative Settlement Agreement and Order on Consent for Removal Actions at the Neuhauser Landfill in Erie, Colorado (CERCLA Docket No. CERCLA-08-2018-0002), the respondent by this notice states that all work required by the settlement, other than preparation of the Summary Report and the continuing obligations listed in paragraph 100, is complete as of today, June 11, 2018. Respondent shall submit for EPA review a final report summarizing the actions taken to comply with this settlement by August 10, 2018.

One additional item of note. Three 55-gallon drums containing IDW from well installation activities that occurred prior to the execution of the AOC remain onsite and are in the process of being characterized for proper disposal. The respondent plans to dispose of the contents of these drums prior to the submittal of the final report.

Please let me know if you have any questions.
Patrick
